

Corrigendum No. – 1

Tender Enquiry No- TPSODL/OT/2020-21/003

Work Description - Performance Based Annual Maintenance Contract for 11KV and LT Network in all TPSODL Divisions

Revised Calendar of Events shall be as mentioned below:-

(b)	Last Date of receipt of pre-bid queries, if any	28.03.2021 up to 15:00 Hours
(b)	Date of pre-bid meeting (will be held online)	30.03.2021 at 15:00 Hours
(c)	Last Date of Posting Consolidated replies to all the pre-bid queries as received	03.04.2021 up to 18:00 Hours
(d)	Last date and time of receipt of Bids	06.04.2021 up to 15:00 Hours
(e)	Date & Time of opening technical bids & EMD	06.04.2021 up to 16:00 Hours
(f)	Date & Time of opening of Price of qualified bids	Will be notified to the successful bidders through our website / e-mail.

Qualification Matrix for BA Employees is being revised and shall be read as under-

Revised Qualification Matrix for BA Employees		
Manpower Type	Education	Work Experience
Safety Engineer (one per Division)	1. Post Diploma in industrial safety and 2. Degree in Electrical Engineering or Diploma in Electrical Engineering	Minimum 3 year of experience in the field of Safety
Supervisor (one per Section)	Degree in Electrical Engineering / Diploma in Electrical Engineering having valid Supervisory Licence	Minimum 02 years of Experience
Lineman (Skilled Manpower)	ITI (in Electrical Trade) with workman HT Licence / HT Workman Licence Holder	2 years for ITI with workman HT Licence Holder / 5 years for HT Workman Licence Holder
ALM / Helper (Unskilled Manpower)	Minimum 7th Standard Pass and able to Read & Write Odiya Language	Having Basic Knowledge of working in Power distribution with emphasis on safety
T.O. (Telephone Operator)	Graduate with basic Knowledge of Computers	Preferred Minimum one year of experience

Resource Deployment Division Wise (Manpower and Vehicle Requirement) mentioned at Page no. 105 of Original Tender Document is being revised and shall be read as mentioned in table on next page.

**Revised Resource Deployment Division Wise
(Manpower and Vehicle Requirement)**

Circle	Division	Sub-Division	Section	TOTAL MANPOWER AMC			TO/KPO	Non- AC VEHICLE (BOLERO)		Safety Engineer

Note-

1. To execute the cable jointing and welding works smoothly, from the above mentioned manpower
 - a. One skilled manpower per Division must be a qualified cable Jointer having adequate skills and experience in cable jointing
 - b. One skilled manpower per Division must be a qualified welder having experience and capability of executing welding works

Clause no. 1 of SLA for Vehicle at page no. 92 is being revised and shall be read as under-

Original Clause	Revised/Additional Clause
Vehicle should be in new condition and with having commercial registration only, and same will be utilized up to 40,000 KM or 2 years continuously which would happen first and after that same would require to be changed with new one.	All Vehicles deployed by the BA should be in Good Condition having commercial registration only. Vehicles deployed by the BA should not be more than 2 years old and also should not have been driven more than 40,000 KM.
Not Applicable	All Vehicles deployed by the BA must be self-audited by the BA on monthly frequency basis. Vehicles can be audited by TPSODL staff at any time with or without prior intimation to BAs though periodic frequency of Audit by TPSODL Officers will be Quarterly.

Following scope of work pertaining to Meter Installation & Associated Activities will also be part of AMC and to be read as mentioned hereunder-

**Scope of Work & Service Level Agreement for Meter installation
& Associated Services**

The contract mention in the document has been bifurcated in TWO parts as mentioned below:

- a. Meter Installation Services (including Meter Testing)
- b. Field Services Executive (For New Connections Site verification).

Meter Installation Services

Scope of Work shall include as per below:

Key Activities:

1. Installation / Replacement / Removal / Reconnection / Shifting of meter with or without service cable (any Size).All issued new connection, re-connection with meters done within two day and faulty, enforcement cases done within 3 days of issuing to respective team (Single Phase Meter).
2. Scrap material has to be returned back to central store within 3 days.
3. Bus bar/Distribution box Installation and replacement with removal of old bus bar / distribution box.
4. Rectification at site as per instruction from Site-in-Charge or TPSODL representative.

5. BA will have to receive material from central stores on fortnightly basis for execution of the cases. Currently 5 stores one each at Berhampur, Bhanjanagar, Phulbani, Rayagada and Jeypore are operational.
6. BA has to maintain space for stacking transit material at Division / Sub-division in urban and Sub-division / Section in Rural area as per BAs requirement to ensure timely execution of the cases. BA has to maintain the store and ensure that no damage / theft happens to material. TPSODL may audit this facility on monthly basis or as and when required.
7. Cases to be executed for meter installation will be shared through Soft copy / Excel list. Pre-printed numbered protocol books will be provided by TPSODL to BA. After deployment of ERP Software in, cases will be forwarded to BA through system and BA will have to print the protocols on their own cost. BA to fill the protocols and handover consumer copy to consumer and return TPSODL copy to EIC. BA to keep record of protocols with him in hard or soft in traceable manner.
8. Installation of wall corner clamp / pipes / angles / fasteners for quality installation shall be provided by BA. Same to be captured in protocols and accordingly consumables shall be claimed by BA in invoice.
9. DT indexing as per requirement to be done by BA.
10. BA has to reconcile/submit weekly detail of Material received, consumed & balance material. Period of reconciliation can be increased or decreased by TPSODL EIC.
11. BA will provide monthly MIS of executed work & the improvement plan of the deficiency in activity and discuss the same with Engineer In-charge.

EIC Monitoring Mechanism for daily activities

- a. Sub divisional officer will be Engineer in charge (EIC) for execution of work for concerned divisions.
- b. Engineer in-charge will intimate BA to deploy number of teams as and when required.
- c. BAs' areas/ division/ sub-division, as the case may be, can be restricted to specific location/ area as per the business requirement to operate. Localization of BAs' Division wise / Sub-division wise, Jobwise (Normal business/ smart meter if required) or Hierarchy-wise (BAs working under Metering Head-Division(Any)) can be done as per the decision of engineer in-charge and will be informed to bidders in advance to plan their movement accordingly.
- d. Monthly targets will be intimated to the BAs two weeks in advance as per requirement and BAs capability. Targets will be signed mutually by both BAs and EICs.

BA compliances for daily activities :

- a. Capturing clear photographs of all meters installation cases and return (not executed) cases due to constrains at site. The photographs shall be submitted in EIC in form of digital media / Pen drive, bi-weekly on sorted K.NO/CA-wise. Generally 5-6 photos have to be brought as:
Meter, b. Connection point at pole end, c. Sag provided, d. Service Cable at consumer end & e. Pole No, f. Photograph of old removed meter reading.
 - The photos shall be sorted based on notification number & meter number wise and same shall be submitted to respective Engineer In-charge on weekly basis.
 - Capturing of GPS co-ordinates of meters in protocol will be must.

- b. The agency will get the job advices for next working day, on previous evening. The Bike will be deployed for this activity and fixed conveyance may be given by BA. The bike shall be loaded with meters and accessories on previous evening itself and must be parked at designated location. These vehicles can be audited by TPSODL staff at any time with or without prior intimation to BAs.
- c. The agency will be responsible for loss or damage of meters and other associated material if any for which TPSODL can resort to recoveries.
- d. BA to co-ordinate with lab in-charge and ensure that sufficient no of tested meters are received from lab for next 3 days of execution.

Submission and punching of protocols:

- a. The Agency shall ensure daily submission of filled protocol sheets of all type of activities, for all the jobs completed during the day, at EIC Sub-Division / Division office or other suggested TPSODL location on same day of execution.
- b. Bidder to arrange sufficient manpower for punching of protocols in system on next day of execution of work. Movement of protocols to data center (where Protocol Punching operators will be sitting) and after punching to record room (where all protocol will be kept for record) will be in scope of BA. BA to arrange for required no of computers, internet connections for punching of same. This KPO will be stationed at Division office.
- c. Agency should maintain proper records of duplicate copies of protocols in hard and soft in easily retrievable formats at his location. Agency shall submit the same on any such requirement of protocols / data as per requirement from TPSODL.
- d. TPSODL reserves the right to amend the schedule for submission of protocols. All such data maintained cannot be shared with third party without prior information to Engineer In-charge.

Daily Monitoring Mechanism, Reports and MIS:

- a. Agency shall provide Daily Meter Installation Report in format provided by TPSODL to capture site visit details and submit the same to EIC in the same evening. TPSODL may change the format of control sheet as per requirement of EIC on time to time basis.
- b. BA shall be responsible for reconciliation of material and generating all reports & formats including exception reports.
- c. All new connection cases shall be completed in 2 working day from the date of issuance of case.

Activity Penalty (Liquidated damages):

Penalty for inadequate execution:

- 1. Penalty of Rs. 50/- per day per case will be imposed in each of the following categories :
 - a. Delay in installation of new connections beyond 2 working days.

- b. Delay in Submission of Protocol beyond two working days after completion of job.
- c. Return of removed meters / material at scrap store beyond one week.
2. If meter gets burnt due to poor workmanship, penalty equal to cost of meter will be recovered.
3. In case of false reporting (like wrong picture, wrong details, and wrong return remarks) for return case by bidder, a penalty @ 2 times the rate of execution of the concerned case shall be levied.

Penalty for non-compliance of Tools and Vehicle

1. Non availability of items in vehicles / non-availability of specified vehicle, at the time of surprise inspection. Penalty @ Rs 2000/- per such occurrence will be imposed.

Note- Penalties mentioned above will have an upper sealing of 10% of monthly bill amount raised by BA.

Penalty for non- compliance of Safety and Ethics

1. All penalties as per Contractor Safety Management (CSM) will be applicable.
2. BA not able to conduct 2% safety audit as per submitted monthly report for any set of division, failing which penalty @ Rs 5000/- per month, will be imposed on the bill of that set of division.
3. Reporting of any unethical activity against BA / replacement of tamper meter, a penalty of Rs 10,000/- per occurrence will be imposed and or termination of employee / contract with Agency can be done as per the discretion of EIC.

Penalty for Non reconciliation of material:

1. Monthly reconciliation of new and removed meter to be completed by bidder by 7th of every month for last month. Processing of bill for the month will be done only after submission of re-conciliation report from EIC. Upon reconciliation, if any material (other than meters and Seals) is found missing, 1.5 times the cost of such missing material will be recovered.
2. Loss of any TPSODL meter or seal (FIR lodged with police station and Informing TPSODL within 3 working days) Rs 5000/- per single phase meter.

Engineer in Charge is the final authority to waive off any penalty based on site conditions / circumstances beyond the control of BA.

No penalty will be imposed in first 2 months of execution on target based performance parameters.

PPE, Tools & Tackles:

The agency shall provide the tools and tackles to each team as per specifications / PPE matrix (Annexure-2) or through any other notification as shared by TPSODL, Brief list is provided below:

2.7.1 Regular Tools:

- a. Crimping tool
 - b. Hammer
 - c. Phase tester
 - d. Lineman's Insulated pliers
 - e. Wire stripping pliers
 - f. Saddles
 - g. Screw Driver
 - h. Tool box
 - i. Double test lamp
 - j. Pre-define Insulated torque Spanner Set
 - k. Measuring Tape
 - l. Pre-paid Meter Crimping machine
 - m. Phase Separator
 - n. Safety Pouch for keeping tools while working
 - o. Safety cones with Caution tapes
 - p. Torch / Emergency light
 - q. First Aid Box
 - r. Rope
 - s. Copper/ Brass chains & shorting leads
 - t. Fire extinguisher
 - u. Ladder (foldable type(2/3 Layer)or as advised by TPSODL) for suitable height
- Or any other material as per site in charge requirement,

PPEs

1. As per PPE Matrix shared by TPSODL in Annexure 2:
 - Double rope Full body safety Harness with latch system & thigh protection (EN 361:2002/ EN 358 : 2000/IS: 3521:1991/2002)
 - Safety helmet (IS:2925-1984) with visor (EN: 166 CE marked)
 - Safety shoes (IS:15298), insulated gloves(EN: 60903 CE marked),
 - Rubber mat (for shock resistant upto 11KV).
- Any other PPE as per Engineer In-charge requirement.

Note: Any other Standard tool which BA considers to be used should also be included. Bidder to ensure to keep minimum of 5 % reserve of all tools and tackles to meet the daily requirement without hampering the work. Stock register to be maintained by BA and shall submit a copy of same to TPSODL for verification along with monthly bill being invoice submitted.

Materials for execution of work:

Materials issued by TPSODL:

All major items viz Meter, Meter Boxes, Cable, meter seals, Bus bars Box, Distribution boxes, Cable Glands (for pole mounted DBs). BA will reconcile the material issued by TPSODL on regular intervals specified by TPSODL.

Materials would be supplied by BA:

(Cost shall be included in the BOM activities) : Cable anchor clamp, shackle insulator, GI wire(7/10Sq.mm), D- clamp, line taps, wedge connectors, cable tie, wall corner clamps etc, Lugs for 95sq mm & 150 sq mm, fasteners, nails, Saddles, Nut Bolts, Thimbles, ISI marked Insulation tape, HT tape, M seal, Ferrule, Aluminium binding wire, Bobbins, Earth wire (multi stand-16 MM), Pre-paid meter connector, cotton tape, spring washer, Link of suspension clamp, Steel Straps & Buckles, carbon paper, pins etc. and any other miscellaneous items of quality specified by TPSODL.

1. Material shall be supplied by BA as and when required /as per site requirement and would be paid by TPSODL -

- a. Jubilee Clip - for providing earth at meter end.
- b. Pre-fabricated MS structural angle/channel/ flats of size (b x h x t) (50 x 50 x 6) of 300 mm long.
- c. Pre-fabricated GI structural angle /channel/flats of required size. 1 set GI angle contains 2 no. of Slotted angle of size (40 x 40 x 6) of 400 mm long) and 2 nos of GI nut bolts of size (16 mm x 200 mm long) for cable size upto 4*150 sq.mm.
- d. Pre-fabricated GI structural angle /channel/flats of size. 1 set GI angle contains 2 nos of Slotted angle of size ((50 x 50 x 6) of 400 mm long) and 2 nos of GI nut bolts of size (16 mm x 200 mm long) for cable size upto 4*300 sq.mm.
- e. Assorted Size (25 mm to 100 mm) of GI Pipe for underground cable connection. Digging provision along with ROW permission wherever required for underground cable connection will be taken care by BA. MS /GI structure will be in the form of slotted angle/D Clamp (at pole end/Temporary Connection/Distribution box), extension angle (where ground clearance to be extended at consumer end), angle bracket with double anchor fastener (at consumer end) etc. (Wherever not mentioned, TPSODL reserves the right to modify / amend the above as per requirement)

Certificate of Quality:

BA shall submit a self-certification for quality of installation with every bill submitted to TPSODL to confirm that installations have been in accordance with procedures / standards laid down in this document and other quality norms of TPSODL. If any deviation in Quality is observed, agency will rectify within 10 days of notice given by TPSODL.

Safety Compliance:

1. BA has to strictly follow the contractor safety management system (CSM).
2. Business Associate has to conduct Surprise Audit at site during execution of work in minimum 2% cases. A report of same is to be submitted in agreed up on format to EIC.

Special Conditions for Payment :

At end of each month, BA shall provide reconciliation of protocol in the system. Based on reconciled protocol, the payment shall be released as per below milestone.

Wrong seal reconciliation or non-conformance of the work will be liable to be penalized @ 4 times of activity rate.

1. If the filled protocol with seals detailing is not signed from consumer / his representative, then penalty @ 4 times the execution rate of the case will be levied. However if consumer refuses to sign the protocol intimation of the same to be given to engineer of contract of TPSODL.
2. In case of non-performance from Business Associates, if TPSODL has to do this work on its own or get it done from another source then Cost for the activity + 50% of the same will be recovered from the BA.
3. The contract may get terminated if it is found, that the agency is involved in malpractices.
4. Seal tampering leading to power theft. In such cases black listing and legal action may also be taken against the agency or its employee.
5. Reconciliation of material (other than seals) has to be done on monthly basis and a penalty @ 2 times the cost of material will be imposed.
6. Loss of any TPSODL Seal (FIR lodged with relevant police station and informing TPSODL within 3 working days), a penalty of Rs 1000/- per seal will be imposed. Loss of any TPSODL Seal (without FIR lodged with relevant police station and informing TPSODL within 3 working days) Rs 1500/-per seal will be penalize

Annexure 2- For list of tools and PPE -

List of PPEs and Relevant Standards. In case of the common PPE as asked for in original tender document at page no. 86-88, the standards and proposed brand & Model shall be applicable as per below list or as per GCC.

Sl. No.	Name of PPE	IS / EN Standard	Proposed Brand & Model
01	Leather Safety Shoes (Colour – Black) with PU toe cap.	IS:15298 part2	BATA Liberty ACME M/s Unicare Fire Safety (India) Pvt Ltd
02	HDPE Safety helmet with chin strap and ratchet type for adjustment.	IS:2925-1984	Karam (PN Safetech) Joseph Leslie Accent Industries Honeywell M/s Unicare Fire Safety (India) Pvt Ltd ACME
03	Full body harness (Safety belt) with double lanyard	EN 361 :2002 , EN 358-2000(2) ,EN355-2002(2)	Karam (PN Safetech) Joseph Leslie Accent Industries M/s Unicare Fire Safety (India) Pvt Ltd Abrigo
04	Electrical Safety Gloves	EN: 60903 CE marked	Make -Sparian / Sumitech / CATU, Honeywell, JYCO,
05	Full face visor	EN: 166 CE marked (Visor) or as approved by TATA POWER-DDL	Karam (PN Safetech) Joseph Leslie Accent Industries Honeywell Paras Industries Windsor
06	Rope grab fall arrester with Polyamide life line rope.	EN353-2	Karam, Udyogi , Honeywell, Saha Rope Grab fall arrester
07	Reflective Jacket	Confirming to 15809	Crossway vertical solution, safety house, M/s Unicare Fire Safety (India) Pvt Ltd, safety solution, safety house or any other manufacturer confirming to BIS and TPDDL standard.
08	Hand Gloves Cotton	IS 6994(part1)	Safety house, safety solution, M/s Unicare Fire Safety (India) Pvt Ltd, or any other reputed make conforming to BIS.
09	Hand Gloves (Rubber type)	IS 6994(part1)	Safety house , safety solution, M/s Unicare Fire Safety (India) Pvt Ltd or any other reputed make conforming to BIS.
