

Tender No : TPSODL/OT/2024-25/008				
Package Name: Rate Contract for New and Missed Asset Data Updation in GIS for PAN TPSODL.				
Reply to Techno Commercial Pre Bid Query				
Sr. No.	Detailed Reference to TPSODL Tender Document. Please specify Document No / Clause No / Page No	Description as per Bid Document	Remarks - Query / Clarification	TPSODL Response
1	2	3	4	5
1	Clause 1.7 Technical Qualification Criteria Sub Clause I (Page no.7 of 27)	The Bidder must have experience in successfully completing Utility Survey & data processing work using PDA (Personal Digital Assistant) or Digital data collection devices in the last 10 years (as on 31st March 2024). Copy of work order / completion certificate to be submitted in this regard.	We believe that phase completion or ongoing projects will be considered as it has been asked to submit Work order / Completion Certificate. Please Confirm.	Ongoing Projects will also be considered.
2	Clause 1.7 Technical Qualification Criteria Sub Clause II (Page no.7 of 27)		We believe that phase completion or ongoing projects will be considered as it has been asked to submit Work order / Completion Certificate. Please Confirm.	Ongoing Projects will also be considered.
3	Annexure-II, Project Objective (Technical Evaluation Criteria Project Experiencepage no. 2 of 11)	Bidder has worked nos. of projects for GIS. Any successful project / pilot/GIS maintenance for any Utility. For each project 1 Mark maximum limited to 5 Marks Nos of Project/pilot Completion Certificate or PO	We believe that PO/ Work order will suffice the project experience in Technical Qualification Criteria.	Yes
			We request to kindly consider any GIS related project (having component of GIS Mapping and Survey) including utility project.	Tender clause prevails
4	RFP Document, 7.4 Drawing Submission and Approval, Page no. 15	The relevant drawings and GTPs need to be submitted within two weeks of receipt of firm purchase order by the successful bidder to TPSODL for approval. In case, re-submission of drawings is required on request of TPSODL, same needs to be submitted back to TPSODL within 5 days of such request.	We understand that GTPs are not the part of scope of work and the drawings referred to in this clause are the SLDs of PSSs and electrical network.	Yes, GTPs are not required. However, the details of Drawing submission has been mentioned in 9.4 clause in page no 7.
5	RFP Document, Annexure-I Schedule of Item, Page no.17	TPSODL intends to award maximum 2 Circle to a single bidder. However, TPSODL shall reserve the right to decide the no. of Circle / Divisions and allocation of the particular Circle / Divisions to a respective BA while awarding the Contract.	Kindly let us know the minimum circle/division to be allotted to successful bidder.	Tender clause prevails
	RFP Document, 3.0 Submission of Bid Documents 3.1 Bid Submission, Page 10	The EMD in the form of Bank Draft / BG / Bankers Pay Order shall be submitted in original hard copy and then placed in sealed envelope which shall be clearly marked as below: EMD "RC for new and missed asset data Updation in GIS for pan TPSODL"	We request you to kindly allow 2-3 working days from the end date of submission of bids for the original EMD document to be submitted at TPSODL office.	Please plan in advance for submission of EMD on time as per schedule
6	RFP Document, Technical qualification criteria:, Page 7	Availability of minimum 50 no. of manpower for GIS survey and digitization on bidder payroll. Details of manpower on company letter head with certification from Chief-HR / Director of the company to be furnished.	We understand that the details required here mean a summary of different resources and not the list of names of surveyors/GIS digitizers. Kindly confirm	Required the detail list of Manpower.
7	Annexure-II Scope of Work and Service Level Agreement, 4. Setting up of Office, Page 4	The bidder must setup his own office of adequate size in Berhampur within 1 km radius of TPSODL GIS office location.:	We understand that , bidder has to set up division level office as well as at Circle level. Kindly clarify	Yes
	Annexure-II Scope of Work and Service Level Agreement5. Scope of Work, Page 6	9.3 Mapping of New/Untagged consumers in GIS.	We understand that mapping of new untagged consumers from field is not a part of scope of work. The data of the consumers will be provided by the department and the bidder has to migrate the same in to the GIS platform.	Yes, However TPSODL may required some cases to be surveyed.
8	Annexure-II Scope of Work and Service Level Agreement,10. SLA	NOTIFICATION INFLOW RATE AND THEIR QUANTUM NEED TO BE MORE SPECIFIC TO FINALIZE EFFORTS AND TIME REQUIRED	In case the number of notification per day are more than the surveyors deployed in that division - How will the time factor be justified. Kindly explain	It is the responsibility of the bidder to meet the SLA.
9	Annexure-II Scope of Work and Service Level Agreement, PAGE 10_10. SLA	10. SLA	Please let us know the number of Minimum and Maximum queries to be resolved in provided in the given timeline in SLA	It is the responsibility of the bidder to meet the SLA.
	Annexure-II Scope of Work and Service Level Agreement, PAGE 10_10. SLA	10. SLA	Required more clarification on evaluation of non-working Hrs./Day's	It is the responsibility of the bidder to meet the SLA.
10	Annexure-II Scope of Work and Service Level Agreement, Bid-evaluation criteria ,Page 2	Digitization Skill in GIS system   Demonstrate adequately digitization skills using on Payroll resources.  Submit the EPF & pay slip of payroll Digitizers	We understand that TPSODL would like to evaluate the resource strength of the prospective bidder in line with the bid requirement. Providing Pay slips of so many employees will be a tedious task. Instead a declaration from the HR mentioning the strength and EPF compliance should suffice. Kindly confirm.	Submit the mentioned documents of the resources, who will be engaged in the project
11		BoQ:	We understand that the scope mentioned in the BoQ for all the circles is tentative. We request to kindly consider the billing on per resource per month basis rather than on scope expedited as the scope is very dynamic and the quantities may show variance on either side.	Tender clause prevails
		BoQ:	If there is no criteria of working Hrs./Day's, how we evaluate unit/per manpower commercially	Tender clause prevails
12	Annexure-II Scope of Work and Service Level Agreement, Bid-evaluation criteria ,Page 2	Survey Skill in GIS system-  Demonstrate adequately the quality & accuracy of survey and painting skills using on Payroll resources. --5 Submit the EPF & pay slip of payroll Surveyor & Painters.	We are GIS based company having utility survey and GIS works as our core competence and usually no GIS company has painters on their roll. Therefore, a declaration from the prospective bidder to provide the painter should suffice	Submit the mentioned documents of the resources, who will be engaged in the project
13		Pre Bid Meeting	Request you to share an online link to allow participation in the pre bid meeting virtually.	Presently, not required. However, If TPSODL wants, we will share the Meeting details.

14	Document No. 3. SOW & SLA (Annexure -2), Clause No. 5, Page No. 5	Mapping of new network & assets	1: AABSYS expects that TPSODL will be providing us the list of Assets. If Yes, we assume that the geometry of the assets will be defined by TPSODL in GIS environment. 2: We assume that the database structure would be shared with AABSYS. 3: We hope TPSODL would be sharing the list of attributes that needs to be captured as part of the project.	TPSODL will provide all relevant information, once the successful award of contract.
15	Document No. 3. SOW & SLA (Annexure -2), Clause No. 5 (Scope of Work), Page No. 5	Data updation in 33 KV network, PSS, 11 KV network, DSS, LV network, Consumers and land base as per TPSODL data model along with painting of assets.	1: AABSYS assumes that TPSODL will provide the GIS Data Model and database structure. 2. We expect that TPSODL will be providing the consumer list and authorization letter for collection of the information. 3: Do we need to geotag the consumer location and collect the photograph of the consumer. Also, requesting to let us know what other information are to be collected apart from location. 4: Whether Satellite Images will be provided to capture the land base and what would be the different type of land base that need to be captured.	TPSODL will provide all relevant information, once the successful award of contract.
16	Document No. 3. SOW & SLA (Annexure -2), Clause No. 5 (9.1), Page No. 5	Under this task, bidder should map new network assets in GIS. Bidder is required to complete the mapping of new network assets in Smallworld database as per latest survey and digitization rule.	1: Consumer/asset survey will be done through TPSODL Mobile Application. Whether the mobile application will be provided by TPSODL. 2: AABSYS expects that proper database will be provided by TPSODL, so that it can be integrated with TPSODL GIS Environment 3: AABSYS would like to know on Accuracy of Survey and whether geotagged photographs of surveyed assets are required?	1. TPSODL will provide mobile application for Survey. 2. TPSODL will provide all relevant information, once the successful award of contract. 3. No need of geotagged photographs.
17	Document No. 3. SOW & SLA (Annexure -2), Clause No. 5 (9.1, 9.1.1), Page No. 5	Bidder is required to complete the mapping of new network assets in Smallworld database as per latest survey and digitization rule. The mapping of these PSS and DSS would include linkage of this new PSS/DSS to the existing network and running the network trace and QC tools on that network and clearing off all the tracing error as per TPSODL survey and digitization rule.	1: Whether we need to integrate the surveyed data in the Small World through Online or Web Application mode? 2: AABSYS assumes that TPSODL will provide login to link the earlier database. 3: Whether TPSODL will provide training in GE Smallworld.	Digitizer will digitize in GESW environment. And TPSODL will provide the GE Smallworld training.
18	Document No. 3. SOW & SLA (Annexure -2), Clause No. 5 (9.2.1), Page No. 6	Updation of existing PSS and DSS in GIS would include updation of attributional and geographical information in Smallworld EO.	1: Is it possible to have a look on the GE Smallworld database structure.	TPSODL will provide all relevant information, once the successful award of contract.
19	Document No. 3. SOW & SLA (Annexure -2), Clause No. 5 (9.4), Page No. 6&7	Bidder shall provide the softcopy of map and PDF SLD of network and PSS as and when required. GE Smallworld or other software will be used to provide printouts. TPSODL will printout the required map and bidder will deliver to the concerned stakeholders	1: AABSYS requests TPSODL to let us know the size of map composition i.e. A4, A3, A1 etc.	TPSODL will provide all relevant information, once the successful award of contract.
20	Document No. 3. SOW & SLA (Annexure -2), Clause No. 5 (9.4), Page No. 6&7	Bidder shall paint the new assets added to the system along with existing unpainted assets. Assets must be painted before digitization. Newly added assets will be mapped in the system along with paint code. The bidder must follow TPSODL Painting guideline for painting.	1: As the survey and digitization will depend on painting, so the timeline will be more. So it is requested that the painting timeline be different. AABSYS is also requesting for any sample of asset painting.	Tender clause prevails
21	Document No. 3. SOW & SLA (Annexure -2), Clause No. 5 (9.7), Page No. 7	Bidder will survey and submit the digitized Elephant corridor data to provided by TPSODL. TPSODL as per inputs	1: AABSYS would like to know the length/area of Elephant corridor to be surveyed and digitized. 2: We would like to know whether GPS or DGPS survey is required for Elephant Corridor.	1. Estimated quantity has been provided in RFP. 2. TPSODL will provide survey procedure and survey will be conduct in TPSODL Mobile application.
22	Document No. 1. 1.7 Qualification Criteria), Clause No.2, Page No. 8	Earnest Money Deposit (EMD). EMD shall be exempted for MSME registered in the State of Odisha. However, Bidder shall be barred to participate in the tendering process for a period of 2 years in case it backs out post award of the contract.	AABSYS is registered MSME (Small) in the state of Odisha. We are expecting that EMD shall be exempted for the same. Do we need to furnish only the MSME certificate, or any other documents required.	ODISHA State MSME Certificate Shall be required
23	Document No. 1. 1.7 Qualification Criteria), Clause No.I, Page No. 7	Technical qualification criteria: I. The Bidder must have experience in successfully completing Utility Survey & data processing work using PDA (Personal Digital Assistant) or Digital data collection devices in the last 10 years (as on 31st March 2024). Copy of work order / completion certificate to be submitted in this regard.	AABSYS has completed several utility projects in Small World environment internationally. Regarding, Utility Survey & data processing work using PDA (Personal Digital Assistant) or Digital data collection devices, AABSYS is requesting TPSODL to consider survey of POI's (Point of Interest's), PA's (Point Addressing) and Slum Surveys to be taken into consideration.	Tender clause prevails
24	Document No. 3. SOW & SLA (Annexure -2), Clause No.III, Page No. 7	Technical qualification criteria: III. At least one project for successfully completed Survey & data processing work for more than 1,000 ckt km of electrical network data and door-to-door survey of more than 1,00,000 consumers in electric utility. Copy of work order / completion certificate to be submitted in this regard.	AABSYS has completed several utility projects in Small World environment internationally. Regarding, Survey & data processing work for more than 1,000 ckt km of electrical network data and door-to-door survey of more than 1,00,000 consumers in electric utility. AABSYS is requesting TPSODL to consider survey of roads, ofc cables and Slum Surveys to be taken into consideration.	Tender clause prevails
25	Clause 1.7 Qualification Criteria Sub Clause I (Page no.6 of 27)	The bidder should have average annual turnover of Rs. 6 Crores in any of the three financial years from (FY 19-20, FY 20-21, FY 21-22 and FY 22-23). Audited balance sheet, profit and loss account and auditors report from the statutory auditors of the company required).	We request to kindly consider Average annual turnover of Rs 5 Crore in any of the three financial years from (FY 19-20, FY 20-21, FY 21-22, FY 22-23 and FY 23-24). Audited balance sheet, profit and loss account and auditors report from the statutory auditors of the company required).  We request to consider provisional Balance Sheet for FY 2023-24. Audited balance sheet, profit and loss account and auditors report from the statutory auditors of the company required). As the final sheet is under process	OK, Please refer the corrigendum  NA

			Or Kindly consider the annual turnover of Rs. 5 Cr. in any of the last three years out of FY 19-20, FY 21-22 and FY 22-23	NA
26	Clause 1.7 Technical Qualification Criteria Sub Clause I (Page no.7 of 27)	The Bidder must have experience in successfully completing Utility Survey & data processing work using PDA (Personal Digital Assistant) or Digital data collection devices in the last 10 years (as on 31st March 2024). Copy of work order / completion certificate to be submitted in this regard.	We believe that phase completion or ongoing projects will be considered as it has been asked to submit Work order / Completion Certificate. Please Confirm.	Ongoing Projects will also be considered.
27	Clause 1.7 Technical Qualification Criteria Sub Clause II (Page no.7 of 27)		We believe that phase completion or ongoing projects will be considered as it has been asked to submit Work order / Completion Certificate. Please Confirm.	Ongoing Projects will also be considered.
28	Annexure-II, Project Objective (Technical Evaluation Criteria Project Experience page no. 2 of 11)	Bidder has worked nos. of projects for GIS. Any successful project / pilot/GIS maintenance for any Utility. For each project 1 Mark maximum limited to 5 Marks	We believe that PO/ Work order will suffice the project experience in Technical Qualification Criteria.	Yes
29		Nos of Project/pilot Completion Certificate or PO	We request to kindly consider any GIS related project (having component of GIS Mapping and Survey) including utility project.	Tender clause prevails
30	9.6 Physical inspection for asset information 33 KV, 11 KV and LV	Bidder must physically inspect the Network, assets and consumers of existing migrated feeders as per the requirement of the TPSODL. TPSODL will provide the data for preparing KML and other QC based format of the said data for verifying & capturing the changes. After completion of inspection, the error, abnormalities or changes observed and recorded must be updated in GESW database.	Please confirm that will these 100% verification of all network asset to be done, if any changes is not found how the billable value will be identified.	During the process of verification, If any observation found or not found, the billing will be done for 100%. However, verification documents will be shared with TPSODL. If TPSODL found any deviation with the submitted report during QC, BA will be penalized.
31	9.6 Physical inspection for asset information 33 KV, 11 KV and LV	Bidder must physically inspect the Network, assets and consumers of existing migrated feeders as per the requirement of the TPSODL. TPSODL will provide the data for preparing KML and other QC based format of the said data for verifying & capturing the changes. After completion of inspection, the error, abnormalities or changes observed and recorded must be updated in GESW database.	What is the invoicing criteria , when the successful bidder need to do the survey	Tender clause prevails
32	SOW & SLA (Annexure -2) 7. Project Management (Page no. 9)	Bidder must deploy 3 surveyors, 1 painter and 1 GE Smallworld digitizer for each division of awarded circle.	We would like to inform you that as there is no definite identification of quantity as the RFP is related to the identification of change management, It is very difficult to deploy & manage the Man month cost with other logistic expenses without having clear identification of quantity of work, In this regard we would request you to kindly provide the flexibility to the bidder to plan their resources according to the shared quantity of work on the duration of work from TPSODL without compromising SLA	Tentative resource requirement has been mentioned in RFP. However, BA will add manpower depending upon more network changes to meet the SLA.
33	SOW & SLA (Annexure -2) 10. SLA (Page no. 11)	The billing will be done on monthly basis based on the activities completed and delivered. Calculation of Billing Score: Total No of Incidents (Network change Requests) performed in a month = total incidents	As per nature of work, below listed criteria can occur at any time. Please clarify regarding the billing criteria. 1. If no incidents received from any division for a particular month, then what is the billing criteria? 2. If less incidents received from any division for a particular month, then what is the billing criteria? Note: division wise 5 dedicated resources (3 surveyors + 1 Painter + 1 Digitizer) along with all logistics and 1 sharing resource (Project Manager) involve for the entire month. Requesting to consider billing criteria as per Division wise deployed resources instead of line item wise and/or quantity wise	Network changes has been planned for whole Year. So there will be work for every month.
34	SOW & SLA (Annexure -2) 10. SLA (Page no. 11)	Calculation of Billing Score: Total No of Incidents violated SLA = tot_sla_violations	Please clarify: If bidder successfully completed the incidents within the timeline but the incidents are not validated by the concerned department due to any circumstances, then the incidents are treated as 1. Incidents successfully performed in a month - OK from bidder 2. Incidents violated - request to consider "successfully performed" due to completed within timeline. Note: division wise 5 dedicated resources (3 surveyors + 1 Painter + 1 Digitizer) along with all logistics and 1 sharing resource (Project Manager) involve for the entire month. Requesting to consider billing criteria as per Division wise deployed resources instead of line item wise and/or quantity wise	TPSODL will perform QC within the stipulated timeline.
35	SOW & SLA (Annexure -2) 10. SLA (Page no. 11)	Score: If Billing Score >= 90% then Invoice %: 100% of invoice amount of the month will be paid.	OK	
36	Table No: 10	Score: If Billing Score >= 85% and < 90% then Invoice %: 95% of invoice amount of the month will be paid.	Please clarify, when bidder will be receive rest payment and what is the criteria to get the rest payment	Tender clause prevails
37		Score: If Billing Score >= 80% and < 85% then Invoice %: 90% of invoice amount of the month will be paid.	Please clarify, when bidder will be receive rest payment and what is the criteria to get the rest payment	Tender clause prevails
38		Score: If Billing Score < 80% then Invoice %: 60% of invoice amount of the month will be paid.	Please clarify, when bidder will be receive rest payment and what is the criteria to get the rest payment	Tender clause prevails

39	SOW & SLA (Annexure -2) 7. Project Management (Page no. 9)	Bidder must deploy 3 surveyors, 1 painter and 1 GE Smallworld digitizer for each division of awarded circle.	Please clarify, If no work is available in a particular division for a particular month, then what is the criteria to calculate the billing? Because bidder deploy specific resources on the instruction of TPSODL, but TPSODL have no work for the time being. What is possible way to incur the cost of deployed resources?	Network changes has been planned for whole Year. So there will be work for every month.
40	SOW & SLA (Annexure -2) 3. Experience for resources (Page no. 4)	GIS Surveyors: Should have hands on knowledge of GIS products like GE Smallworld, ESRI products and QGIS	Please clarify, what would be the job work for for surveyor? As per our understanding, Surveyors doing the survey on field with the help of GIS Application (provided byTPSODL) and provided the data to Digitizer.	Yes
41	SOW & SLA (Annexure -2) 10. SLA (Page no. 10) 3. Mapping of new 33 KV,11 KV & LV network:	Mapping of New 33 KV network (timeline: 48 hours within 20 Km radius and 72 hours beyond 20 Km radius from Div. HQ)	Please consider the timeline of survey because new enhance line may be cover in huge area and it will take some time as per ground scenario. Also please clarify for deviation as per below listed scenario 1. FORCE MAJEURE clause 2. Weather 3. Administration issue	Tender clause prevails
42		Mapping of New 11 KV network (timeline: 48 hours within 20 Km radius and 72 hours beyond 20 Km radius from Div. HQ)		Tender clause prevails
43		Mapping of New LV network (timeline: 48 hours within 20 Km radius and 72 hours beyond 20 Km radius from Div. HQ)		Tender clause prevails
44	SOW & SLA (Annexure -2) 10. SLA (Page no. 10) 4. Survey & Updation existing 33 KV,11 KV & LV network	Updation of existing 33 KV network (timeline: 36 hours within 20 Km radius and 48 hours beyond 20 Km radius from Div. HQ)	Please consider the timeline of survey because it can be happen in scattered area and it will take some time as per ground scenario. Also please clarify for deviation as per below listed scenario 1. FORCE MAJEURE clause 2. Weather 3. Administration issue 4. Local area issue	Tender clause prevails
45		Updation of existing 11 KV network (timeline: 36 hours within 20 Km radius and 48 hours beyond 20 Km radius from Div. HQ)		Tender clause prevails
46		Updation of existing LV network (timeline: 36 hours within 20 Km radius and 48 hours beyond 20 Km radius from Div. HQ)		Tender clause prevails
47	SOW & SLA (Annexure -2) 10. SLA (Page no. 10) 8. Painting of NEW/Unpainted assets	Painting of New Assets (timeline: 48 hours within 20 Km radius and 72 hours beyond 20 Km radius from Div. HQ)	Please consider the timeline of painting because it can be happen in scattered area and it will take some time as per ground scenario. Also please clarify for deviation as per below listed scenario	Tender clause prevails
48		Painting of existing unpainted Assets (timeline: 48 hours within 20 Km radius and 72 hours beyond 20 Km radius from Div. HQ)		Tender clause prevails
49	7. Project Management:	Bidder must deploy 3 surveyors, 1 painter and 1 GE Smallworld digitizer for each division of awarded circle.	Please confirm	Tentative resource requirement has been mentioned in RFP. However, BA will add manpower depending upon more network changes to meet the SLA.
50	9.6 Physical inspection for asset information 33 KV, 11 KV and LV	Bidder must physically inspect the Network, assets and consumers of existing migrated feeders as per the requirement of the TPSODL. TPSODL will provide the data for preparing KML and other QC based format of the said data for verifying & capturing the changes. After completion of inspection, the error, abnormalities or changes observed and recorded must be updated in GESW database.	How many times in a year the 100% physical verification to be done? If multiple times than the invoicing criteria will be based on no of Km physically verified. Please clarify.	Tender clause prevails
51	4.6. Reverse Auctions	TPSODL reserves the right to conduct the reverse auction (instead of public opening of price bids) for the products/ services being asked for in the tender. The terms and conditions for such reverse auction events shall be as per the Acceptance Form attached as Annexure VI of this document. The bidders along with the tender document shall mandatorily submit a duly signed copy of the Acceptance Form attached as Annexure VI as a token of acceptance for the same.	Please confirm will there be a reverse auction ?	Tender clause prevails
52	7.1. Special Conditions of Contract	The overall period of the contract shall be for a period of One years. Release Order (RO) shall be placed as per the requirement of TPSODL. Rate shall remain FIRM till the validity of Rate Contract.	As the RFP is related to change management/incremental changes and we have to deploy manpower according to the rfp, please suggest that what will be the minimum qty of each RO , as there are fixed expenses in manpower deployment.	Tender clause prevails
53	ANNEXURE I Schedule of Items	All Line Items	AS per the BOQ billable value is according to Quantity and whereas the RFP states a minimum manpower deployment plan for all division. We would request you please revise the BOQ with reference the manpower deployment plan. As there fixed cost for manpower deployment.	Tender clause prevails
54	ANNEXURE I Schedule of Items	1. Survey and digitization of New/Existing Land base features	AS per the BOQ rate to be quoted as per No. In that regard any linear feature which is continuous in nature? how will be the measurement criteria of linear feature be calculated.	For linear feature, Unit is mentioned in KM in RFP.
55	ANNEXURE I Schedule of Items	7.Survey of incremental/delta network ans assets changes of 33 kV network and updation in GESW database for > 1 Km	AS per the BOQ rate to be quoted as per No. In that regard any linear feature which is greater than 1 km count will be taken as 1 No. If the incremental change is of 5 Km that to would be calculated as 1 No as per BOQ , then how the billable quantity of 5 km to be evaluated?	Refer Annexure I
56	ANNEXURE I Schedule of Items	9.Survey of incremental/delta network and assets changes of 11 kV network and updation in GESW database for > 1 Km	AS per the BOQ rate to be quoted as per No. In that regard any linear feature which is greater than 1 km count will be taken as 1 No. If the incremental change is of 10 Km that to would be calculated as 10 No as per BOQ , Please confirm	Refer Annexure I

57	ANNEXURE I Schedule of Items	11.Survey of incremental/delta network and assets changes of LT network and updation in GESW database for >1 Km	AS per the BOQ rate to be quoted as per No. In that regard any linear feature which is greater than 1 km count will be taken as 1 No. If the incremental change is of 5 Km that would be calculated as 1 No as per BOQ , then how the billable quantity of 5 km to be evaluated?	Refer Annexure I
58	ANNEXURE I Schedule of Items	12.Physical inspection for asset information 33 KV Network, LT & 11Kv	What all activities need to be performed for Physical verification ? Please elaborate .	Detail requirement will be provide after successful award of contract.
59	ANNEXURE I Schedule of Items	12.Physical inspection for asset information 33 KV Network, LT & 11Kv	Please confirm that will these physical verification of a network will be continuous in nature for any feeder?	Detail requirement will be provide after successful award of contract.
60	ANNEXURE I Schedule of Items	12.Physical inspection for asset information 33 KV Network, LT & 11Kv	Please confirm that will these 100% verification of all network asset to be done, if any changes is not found how the billable value will be identified	During the process of verification, If any observation found or not found, the billing will be done for 100%. However, verification documents will be shared with TPSODL. If TPSODL found any deviation with the submitted report during QC, BA will be penalized.
61	9.2.2 Survey & Updation existing 33 KV,11 KV & LV network:	This section would cover survey and Updation of existing 33 KV,11 KV & LV network along with other equipments, such as such Line isolators, boundary meters, RMUs, Auto reclosers, Sectionalizers, LT Feeder pillars, Electric poles, towers and all others assets which will added/modified/deleted in the existing TPSODL distribution system.	Please clarify, if in a scenario where there is bifurcation of the existing network only , As the direction , network flow, asset code will all change, then in this scenario how the billable value to be calculated?	Tender clause prevails
62	9.2.2 Survey & Updation existing 33 KV,11 KV & LV network:	This section would cover survey and Updation of existing 33 KV,11 KV & LV network along with other equipments, such as such Line isolators, boundary meters, RMUs, Auto reclosers, Sectionalizers, LT Feeder pillars, Electric poles, towers and all others assets which will added/modified/deleted in the existing TPSODL distribution system.	Please clarify, if in a scenario where there is full network shifting and there is change in location of the assets, then in this scenario how the billable value to be calculated?	Tender clause prevails
63	9.2.2 Survey & Updation existing 33 KV,11 KV & LV network:	This section would cover survey and Updation of existing 33 KV,11 KV & LV network along with other equipments, such as such Line isolators, boundary meters, RMUs, Auto reclosers, Sectionalizers, LT Feeder pillars, Electric poles, towers and all others assets which will added/modified/deleted in the existing TPSODL distribution system.	Please clarify, if in a scenario where there is change in 1. network asset type(for ex. PCC pole to Rail Pole) 2. enhancement of capacity of Transformer 3.there is change in conductor , than in this 3 kind of scenario how the billable value to be calculated?	Tender clause prevails
64	9.3 Mapping new Landbase features as per TPSODL vectorization process.	Bidder should check land base data in GE Smallworld with satellite image in the background for new constructions or features which are missing in GIS and capture the same. Bidder should follow TPSODL land model for survey and digitization of newly added land features in GE SW database. Bidder should carry out the ground survey for capturing attribute information for features to be added to the GIS system as per TPSODL data model.	Please confirm that will these 100% verification of all network asset to be done, if any changes is not found how the billable value will be identified.	During the process of verification, If any observation found or not found, the billing will be done for 100%. However, verification documents will be shared with TPSODL. If TPSODL found any deviation with the submitted report during QC, BA will be penalized.
